COMMENTS FROM THE TOWN MANAGER'S OFFICE

At the last annual meeting \$5000 was appropriated to the Capital Reserve Fund to be used at some future date for the construction of a Fire Station. The Selectmen voted that this money be deposited in the Bethel Savings Bank to be available when needed. The deposit was made on Dec. 30th.

At the close of the books on Dec. 31st 88.2% of the 1960 taxes were paid as compared to 88.5% one year ago. The check book balance is \$40,784.24 as compared to \$35,947.12 last year. The increase in cash is due to an increase in Excise taxes of nearly \$2,000 and unexpended balances in the appropriation accounts.

A statement of the appropriation accounts appears elsewhere in this issue.

Any person desiring to submit an article for the annual town meeting warrant should leave the article at the Town office no later than Jan. 31st.

The various books and accounts are all balanced and are ready for the State Auditor who is expected to be here on Jan. 9th. Preparation of material for the town report is now in progress.

Sincerely,
Harold L. Bean

SUNDAY RIVER TRAILS TO BE NAMED

Viewers of the Ski Trails program on Channel 8 are awaiting the announcement of the names of the winners of the Sunday River trail naming contest at 7:00 p. m. this evening. Sunday River has awarded season passes or "Shorties" wadels to the four winners, and many Bethel residents have submitted entries. Until today these trails have been designated simply by number.

Sunday River's first full week of operation was aided by two heavy snowfalls, and the skiing now is excellent. Of great value has been the addition of the new Sno-Cat, which has enabled the trails crew to pack and groom the upper slopes far better than was possible last year. This, with the addition of the two new slopes, had greatly increased the area available to skiers at Sunday River.

He is working on a special Forest Unit Product project in the Norway, Waterford, Bridgton, Harrison area. The committee consists of local citizens learning how to speed up Forest Management, and trying to bring Maine's Forest Service up to equal the U. S. Forest Service by the year 2000. Selective cutting and spraying will help to do this. Replanting white pine and other high standard lumber marketable trees. Half the wood produced today is by the small lot owners of 500 acres or less. There is one training meeting in Augusta each year. One summit training meeting held once a year in various places.

The Home Economics chairman announced that they are conducting a contest and at the end of the year will award a prize to the subordinate Grange having the highest attendance at Pomona meetings for the year.

NEW FEDERAL TAX SCHEDULE AVAILABLE

Form 2948, the new Federal tax schedule to aid taxpayers in computing the more liberal medical expense deductions they are entitled to if they, their wives, or their dependent parents are 65 or over, is now available at local Internal Revenue Service offices.

Whitney L. Wheeler, District Director of the Augusta district said a new law, passed last year, provides that the deduction for medical expenses incurred for a dependent parent 65 or over will not be reduced by 3 percent of adjusted gross income, as in the past.

However, as in prior years, if either the taxpayer or his wife has reached age 65 before the close of the tax year, the medical expenses of both can be deducted without being subject to reduction by 3 percent of adjusted gross income, he added.

He said the new Form 2948 will clarify instructions covering these deductions which will accompany Forms 1040 and 1040W to be mailed to taxpayers after the Christmas holidays.

Mr. Wheeler said most taxpayers are not affected by these special provisions and may continue to compute their medical expenses deduction on the regular Form 1040 or 1040W as they have done in the past.

Taxpayers may get additional information or assistance with more complex situations by telephoning or visiting the IRS office in Rumford during designated assistance days.

iston Industrial Building Drive; Chairman, Lewiston Industrial Park, Inc.; Jaycee representative, Lewiston Development Corp., and is the owner of Paragon Glass, Inc., building; Chairman, PTA Fund Raising Drives.

New March of Dimes Appeal Starts

Once again the National Foundation New March of Dimes is making an all-out effort to obtain the support of the entire country in the endless task of research in the suffering fields of polio, arthritis and birth defects. It is deeply gratifying to think back to the splendid response from the residents of Bethel and vicinity in last year's drive, as the total amount turned in was the outstanding figure of \$1,305.62. Everyone that took part in last year's drive can proudly hold their head high as this amount was the highest per capita of Oxford County at 54.5%.

Needless to say, our contributions were utilized to the fullest extent, but once again the need exists for more support. The question in everyone's mind is "How much do we need to give?", or "How much should we give?", and "How much is needed for the March of Dimes?". These questions can be answered by looking at two sets of figures representing the State of Maine. First—189—the amount of Polio cases in the 1959-60 season. Second—by \$54,131—the amount of money spent by the foundation for treatment of these 189 cases, and patients still needing treatment. Of which treatment and rehabilitation must continue to enable these children and adults to lead a normal and useful life, if possible. In some cases, the treatment is endless.

An individual may sit back and say to himself, "Why is Polio continuing if the shots are supposed to be so good?" This question can be answered by anyone by asking himself another question "Have I or my children had all the necessary shots to insure maximum protection?" The discomfort of a polio shot is but for a second

in duration while the post-polio complications are endless in discomfort and suffering. This is the basic reason Polio is continuing and the only solution is for everyone, regardless of age, to immediately make arrangements to receive the necessary protection. When Polio is controlled, we will then be in a position to increase the efforts to the fullest toward research in the other fields of the New March of Dimes.

It is the sincere hope that everyone will receive protection by obtaining necessary shots and supporting the Drive in spirit and contributions.

This year's activities for the month of January will include a variety of functions to inform everyone of the necessity of raising money and supporting the New March of Dimes. Plans are under way for a Beano to be held at the American Legion Building on Friday, Jan. 27th, at 7:30. Numerous helpers will again be asked to sponsor "coffees" or "teas" at their homes. The chairman, Richard E. Thompson, will be pleased to hear from anyone interested in this activity. Please call VA 4-2271, anytime. "Mailers" are currently being sent out to residents of Bethel and vicinity.

This year, as you support and contribute to the New March of Dimes, think not only of the money you give but of the suffering which you are helping to eliminate so that some day we can say that Maine, or possibly all of the United States, had no polio this year; and with this sickness gone, Birth defects and Arthritis may some day also cease to exist — PLEASE SAY YES!

ALIEN REGISTRATIONS REQUIRED IN JANUARY

C. C. Doughty, District Director of the Immigration and Naturalization Service, stated that the annual alien address report program usually causes a sharp rise in the number of applications for naturalization.

The laws require all aliens in the United States, with few exceptions, to report their address each January. Throughout the United States, almost 30 percent more applications for naturalization are received during the months of January, February, and March than are received during other months. Mr. Doughty attributes this sudden rise to the Alien Report Program.

Aliens not required to make this report are diplomats, those accredited to certain international organizations, and those who have entered temporarily as agricultural laborers.

Forms for making the reports will be available to aliens at all Post Offices and offices of the Immigration and Naturalization Service during the month of January. Mr. Doughty indicated that aliens desiring information concerning naturalization or similar matters should obtain the forms at an office of the Immigration and Naturalization Service where personnel trained in these fields will be available to answer inquiries. It is anticipated that nearly 21,000 persons in the State of Maine are aliens and required to comply with this law. Last January the number of aliens in Maine who reported their address exceeded 20,000.

SCHOOL NEWS

Bethel schools were inspected for fire safety on Thursday, December 30, by Fire Chief Roderick McMillin. As a result of the inspection, a number of recommendations were made to further improve fire protection measures and safety. These include plans to purchase additional chemical extinguishers, installation of a panic bar on the rear door at West Bethel, shifting some of the present fire extinguishers so they will be more easily available and recharging all soda-acid extinguishers. Also, it will be necessary to plan for construction of a second exit from three rooms at the Primary School where, at present, only single exits exist and constitute a danger.

Both Newry schools have received ten new desks and chairs as a first step to replace out-dated and worn school furniture. The furniture was purchased from the Paris Mfg. Co. of South Paris.

CARD OF THANKS

Many thanks to my friends for the beautiful cards, letters, and gifts sent to me while in the hospital. I was very pleased to be remembered.

SUNDAY RIVER SKIWAY ENTERS SECOND YEAR

Just a year ago Sunday River in Bethel put its T-bar in gear and sent its first paying customer 3200 feet up the side of Barker Mountain. In the intervening months Sunday River has come of age as a major ski area. Now four broad open slopes, some close to a mile in length, stretch down the face of the mountain, and skiers in increasing numbers are coming to Sunday River for what they have found to be some of the most consistently good skiing in the East.

Sunday River has become known for its warm, friendly atmosphere and its dependable snow cover. These assets, combined with a variety of trails for both tots and experts, have brought family skiing back in style. In addition, last winter's snowfall of 136 inches provided skiing into mid-April and consistent powder snow during the season.

The spacious lodge at the base contains a cafeteria, observation deck and balcony with full view of the slopes, first aid facilities, and the Sun-Ri Ski Shop with its full line of domestic and foreign equipment, rentals and repairs.

Beginners find that the rope tow and practice slope are separated from the rest of the area, thus enabling them to practice without having to worry about their more advanced brethren from the upper slopes. Nils Torjesen, certified instructor, again heads his well known ski school.

Just two years ago last March a group of a dozen skiers from Bethel climbed to the summit of Barker Mountain and cooked steaks on the snowfields at the top. They returned to spread the word: breathtaking vistas, ideal skiing terrain, snow depths up to seven feet. From that small group was born Sunday River Skiway.

Funds were raised through sale of stock and the first loan ever granted to a ski area by the Small Business Administration. Sel Hannah, famed designer of ski areas, was engaged to assess the possibilities and lay out the proposed area. His enthusiasm over the prospects of the area did much to stimulate progress. In the meantime, the village of Bethel turned to, and individuals interested in the area put in untold man hours in building roads, cutting trails, and performing the other myriad tasks necessary. Last winter's success proved the worth of their decision. The continued interest of these original planners and the townspeople of Bethel have done much to create the friendly and informal air for which the area has become known. Now the directors are aiming for the addition of another T-bar to lap the snowfields at the summit and the tremendous skiing potential that lies below them.

This year finds the addition of two new trails, 3500 and 4500 feet in length, a new Sno-Cat for packing and grooming the upper trails, a newly enlarged beginner's slope and lengthened rope tow, and a fresh paint job on the lodge and other buildings. Sunday River is ready for its second successful season.

Paul Bodwell and Peter Davis will work with a small group of boys who have shown some interest in the fundamentals of jumping. The following will report at the Gould Athletic Field each Wednesday from 3:30 p. m. to 4:30 p. m.: George Angevine, Jack Brooks, Alan Curtis, Billy Keable, Kenneth Remsen, Philippe Rolfe, Pete Kaller, David Carter, Paul Vachon.

The Bethel Grand Trunk station 50 years ago. It is about the same today. The water tank and its accessories were removed about 1918 after a rate increase was announced by the Bethel Water Co. The water tank had been in use since June 1896. Before then water was taken direct from the main pipes, much to the inconvenience of other users at times. Prior to the water company's service the railroad had wells in the vicinity of upper Elm Street with wooden pipes to the station, some of which are found in occasional excavations. In this picture the plat-
